BY BRIAN DIEMER

**EVERETT'S GARDENS** is finally a reality! We have been dreaming for years of having a place where customers could see and purchase our amazing plants! On June 1<sup>st</sup>, 2018 we opened the doors to a unique new facility across from Brewer Park Soccer Fields a mile east of Tanger Outlet Mall in Byron Center, Michigan!

Everett's Landscape Management, Inc.'s process over the years of purchasing unique plants has been inspirational and successful! We personally view and then tag the "cream of the crop" from nurseries all over Michigan and the United States. We see firsthand what these prime plants look like when they are at their best! We bring them in, hold them and grow them on until they get designed into the perfect landscape where they will thrive! We "move" most of our plants through personal meetings, designing and matching customer needs with the proper selection of plants. Many of our customers have come to our "secret" nursery to see what we were proposing for their home and they were able to personally "tag" their favorite specimens. Most have been surprised to find such a nice nursery with amazing plants "tucked" back off the beaten path! They fall in love with the plants and can't wait to bring them to their home! In a sense, we have become like an adoption agency for plants! Our plants have been purchased and nurtured to provide an amazing value to the future owner.

A problem for us has been having a place to display our plants to people who would like to do their own landscaping. Our "Home Base" is not set up well to receive customer walk-ins. It is more of a growing facility where our plants keep getting nurtured as they grow in size and value. We have desired a place that would be able to house, display and allow plants to grow in value and maturity until they are sold. We wanted free access for customers to be able to "browse", finding clear labeling and prices, so they could make selection and purchasing decisions. This "dream place" exists now! Everett's Gardens, nestled into the "Foothills" of Southern Kent County, is our new home for our amazing plants! An added bonus is that we have created and will keep creating specialized gardens where we inspire and show how these plants can be used! We like to have fun and that shows! Come see for yourself!

We pride ourselves in providing plant experts on staff who are knowledgeable and passionate about plants, whether they are perennials, shrubs or shade trees! They will help "walk-in" customers make plant selections based on site and soil conditions, amount of light, moisture and even wildlife interactions! We will help a person find the right plant for the right place! And that is why Everett's Gardens is the place "where plant lovers go"!

#### Seasonal Hours:

9am – 5pm M, W, F  
9am – 7pm Tu, Th  
9am – 2pm Sat

#### Address:

240 - 84<sup>th</sup> St. Byron Center MI

#### Phone:
